Enable Learning Within Family

Ibtihel FEKIH

FOUNDER & CEO OF KBAYROUN

Meet IYED

1

A developmental language disorder until he was 3 years old

2

He received occupational therapy sessions, 45 minutes based on play, for 2 years

3

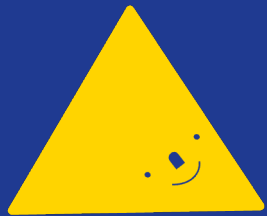

He is now 7 years old and he is really a gifted child

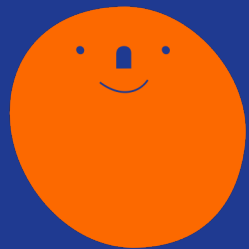

The BIG problem

SCREEN ADDICTION

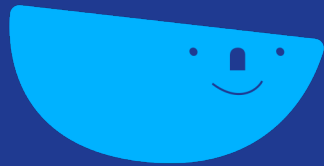

BEHAVIORAL PROBLEMS, LEARNING DELAYS

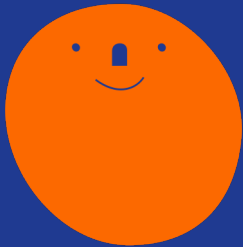

LACK OF LEARNING METHODS

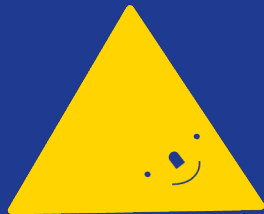

Our HELPFUL solution

INTERACTIVE EDUCATIONAL GAMES

ADEQUATE LEARNING METHOD

CLUBS

Useful for ?

The PARENTS , CHILDREN

The occupational therapist

The kindergarten TEACHERS, Nurseries

WHO WE ARE ?

Kbayroun ?

Kbayroun wants to make learning with parents a priority by talking about the importance of knowledge, sharing their own learning experiences, and providing opportunities for the children to learn and explore.

Kbayroun makes learning fun. Children are more likely to learn when they are having fun, such as playing with our educational games.

We are creating effective and engaging resources for children's daily learning, such as games, interactive book, a daily routine and activities workbook.

We want to make them relevant to children's interests and experiences, educational, fun, and easy to use.

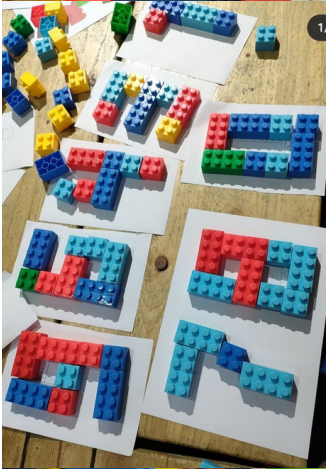

Our FIRST Product..

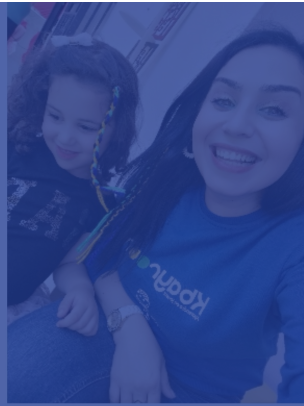

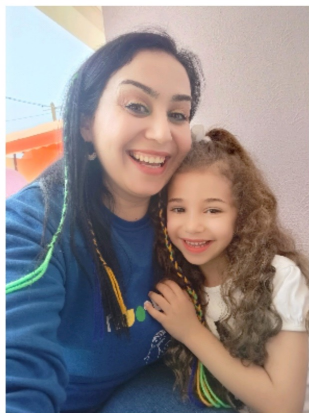

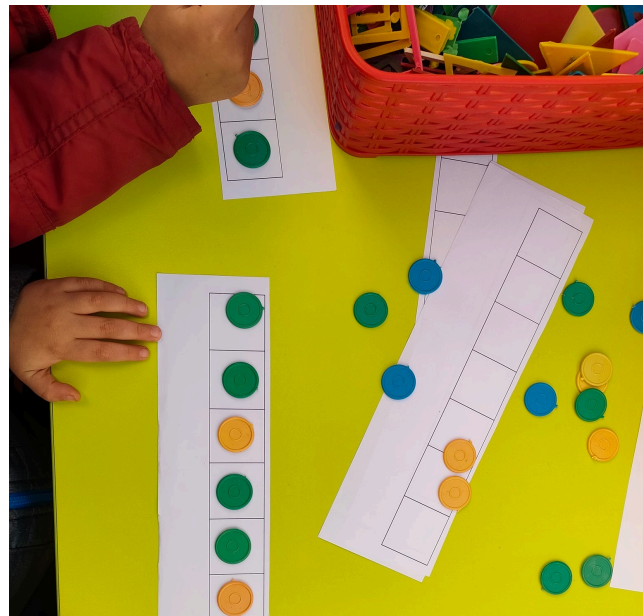

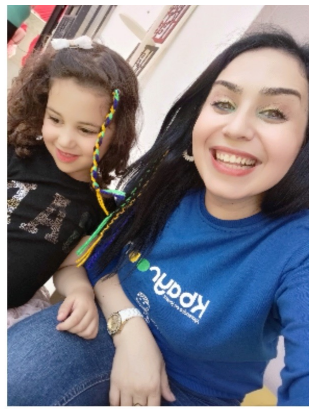

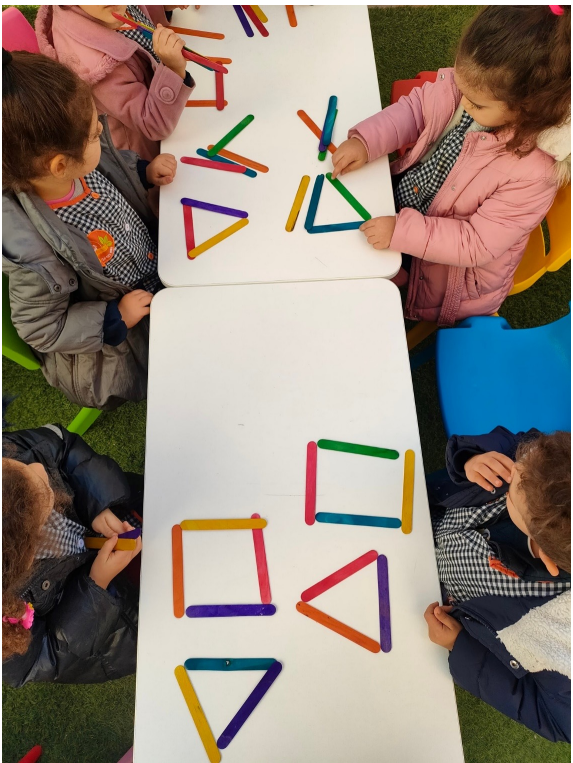

Our CLUBS ..

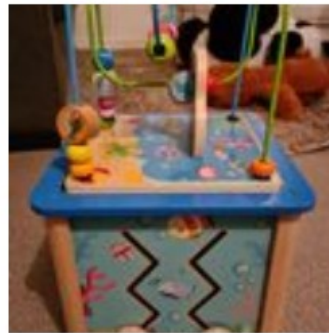

Our CLUBS ..

Kbayroun 's Community

CLIMATE CHANGE ?

CLIMATE CHANGE

Talk about climate change openly and honestly. Let your children know that climate change is a real problem, but that it's one that we can solve if we work together.

Answer your children's questions about climate change in a way that is appropriate for their age. Be honest about the challenges that we face, but also offer hope for

How to EXPLAIN it ?

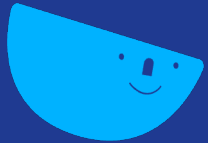

Model sustainable behavior at home. Show your children how to reduce your family's carbon footprint by making changes like driving less, recycling more, ...

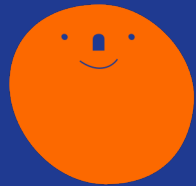

Get your children involved in climate action. There are many ways for children to get involved in climate action, such as participating in school clubs, volunteering for environmental organizations, ...

CLIMATE CHANGE

Watch a documentary about climate change. There are many documentaries available online and on streaming services. Choose one that is appropriate for your children's age and interests.

Visit a museum or science center with an exhibit on climate change. Many museums and science centers have exhibits that explain the science of climate change and its impact on our planet.

What we can do with our Family ?

Read a book about climate change. There are many children's books available that teach about climate change in a fun and engaging way.

Plant a tree or garden. Planting trees and gardens helps to remove carbon dioxide from the atmosphere.

Get involved in a community climate action project. There are many community climate action projects that you and your family can participate in, such as cleaning up a park or beach, or advocating for renewable energy.

The Greenhouse Effect ?

Global Warming ?

Global warming is a gradual and increasingly irreversible rise in average world temperatures at sea level, caused mostly by human activities

There 's no PLANET B !

We need to act NOW to protect our planet. It is a call to action for EVERYONE of you to do his part to reduce the environmental impact and build a more sustainable future !

Renewable energy

3

Takeaways..

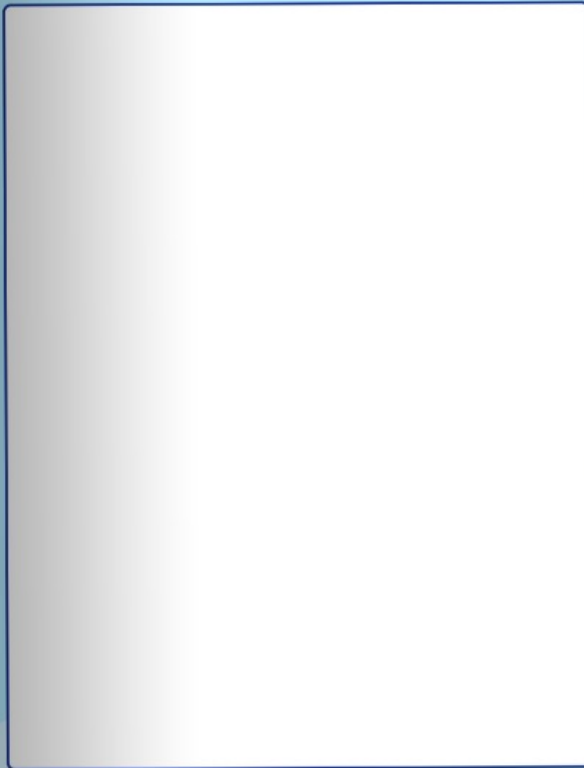

What we can learn from this is that we need to be more inclusive:
